Biography

Thanks to the vision of the founding band members Simon and Heidi, The Mix has evolved into a new and exciting 7 piece party band

With a charismatic male vocalist, two stylish girl singers, Simon on keyboards backed by a tight and talented rhythm section, The Mix produces a pulsating show with non-stop action and music.

From classic swing numbers through up-to-the-minute chart busters, every song The Mix performs is a well crafted tribute to the original artist. Simon and Heidi's renowned talents and genuine love for music, has inspired The Mix to create a huge repertoire of songs which is unsurpassed by any band on the party scene.

Each band member is a talent in their own right and draws from their years of experience working in the entertainment business to bring innovative, professional musicianship to the show.

The Mix have a great sense of fun, falling into character as they perform a fully costumed Abba set and taking you back to the 80's with their Skool Disco show that's not to be missed.

Simon's creative use of stage lighting and a fantastic array of costumes produces an ever changing stage picture, with choreographed dance routines and audience interaction, making for a show which is visually exciting and musically brilliant.

It all combines to make The Mix : one of the most popular bands of the decade.
